

Ottoman Double Cross Dress

Ottoman Double Cross Dress

Not a lot is known about Misako Imoto, the designer behind Leur Logette (the French name translates as 'their little room'). This actually works in the Japanese label's favour, however, leaving the ultra-feminine designs to speak for themselves. By diversifying the pretty details of traditionally romantic silhouettes (take the peplum jumpsuit, for instance, as well as back and shoulder cut-outs that let skin playfully peek through) then hand-finishing them on luxe fabrications, pieces are elevated with intriguing intimacy.

Scattered rose prints, antique lace inserts, tightly frilled trims and more take centre stage in Leur Logette's Spring Summer 16 collection, where asymmetric accents dial down the girlishness. There are also more directional silhouettes to embrace too, like a camisole overlaid tank top that exemplifies the brand's meticulous craftsmanship. Inspired by Parisian décor, with Japanese and vintage influences, no-one else is sewing up the delicate day-to-night dressing category quite so eclectically. Dressed up or down, worn at work or for a wedding: a little Leur Logette will go a long way, whatever the springtime occasion.
